It was a joy and a privilege to be part of it and I would recommend it to anyone!!” Sending you Much Love and Appreciation,

- Every day provided a special memory to treasure, healing with David Bailey, the sacred chapel where we celebrated summer solstice. Virginie enhancing the whole experience anointing with sacred oils, and leading our singing. The green Labyrinth, and the Chair of Isis, with Alan playing for us, adding his own magic.
A fascinating talk by David Lorimer, such a privilege that we were able to meet these special people. Singing together to heal the land with vultures circling over head..... another highlight. Finally a thank you for the kindness and support from others in our group.
Much love 🧡 **Jeanne xxx** 🙌

- Virginie organised an amazing, magical, multidimensional and very enjoyable retreat which was expansive, emotional, healing (to all of us and each place we visited) and a fabulous introduction to the beautiful land of the Cathars. Her boundless energy, ability to effortlessly flow around any minor changes, and choice of venues made the whole trip wonderful - cannot recommend highly enough and I have memories I will treasure...

Norman

- What an enchanting adventure! Virginie's passion, French roots and loving presence allowed us to access special people and sacred places (both within and without). The magic and synchronicity flowed under her warm guidance. It was truly unique and I can't wait to do her extended version of the tour next year!

- What an amazing pilgrimage led by Virginie who put her whole heart into preparing a programme full of joy and laughter, connecting with new but familiar people, our soul tribe. Being in the moment embracing spontaneity and change possible in an intimate group of 11. Top treats for me were connecting with God oneness sounding at highly energetic locations in nature. Grounding with regular water bathing in rivers and lakes. Lessons highlighted were being in the moment, letting go of outcomes, embracing change, resilience, accepting frailties and the importance of being punctual. Gratitude for doing purposeful work clearing the land, being at peace with my soul tribe. Thank you.

🌹 Wynn timer

- I joined Virginie's retreat "Magical French Connection with Mary Magdalene & the Cathar Lands" in June 2026 and found the experience transformative. I actually feel quite different after the retreat (I am writing this in September so it's not a temporary change) and the people around me are noticing. I feel more grounded and present, and life is flowing with more ease.

The retreat itself was, as the name implies, a truly magical experience. I spent eight days with likeminded souls and every day was full of varied, beautiful experiences. I loved the itinerary Virginie spent so long planning. She's been researching the region for many years, to find the best places and people to connect with. Her attention to detail really showed and the days flowed smoothly with time for swimming and some relaxation fitted in between sacred sites, forest walks, market visits and much more. We connected with the energies of the Cathars, Mary Magdalene and Isis. These profound experiences opened up a deeper connection to myself; a wonderful and unexpected gift of the retreat.

I'm so grateful that I was able to join this summer and cannot wait to go again next year!

- We recently spent a week on a spiritual retreat in the breathtaking countryside of Rennes-le-Chateau and the surrounding area. It was nothing short of transformative! Nestled away from the hustle and bustle, this retreat offered an immersive experience that thrived on tranquillity, relaxation and deep spiritual connection.

The ancient terrain sparks with legends, especially those of Mary Magdalene and the Cathar Lands, and we found ourselves walking paths steeped in mystery and sacred history. Each experience and activity felt like a magical journey into both the heart of nature and our own souls. The surroundings were a balm for the spirit; allowing us to unwind and rejuvenate in ways we hadn't imagined possible.

What truly set this retreat apart was the sense of community. We met incredible, like-minded individuals who shared their stories, laughter, and warmth.

The venue and accommodation at the Centre Labadous was cozy and inviting, making it feel like a true sanctuary. The food was a delightful celebration of local flavours, nourishing not just the body but the soul as well. Every moment spent there left us with unforgettable memories and a deep yearning to return to this region of France, which truly captured our hearts.

If you're seeking a profound escape, look no further. We recommend this retreat as a beautiful haven for healing and connection.
